To: All Distribution

Callas/Kingsley is pleased to announce the following changes to their current product offerings:

Effective immediately, **The Electriflex Company** is introducing UL Listed fixture whips as an addition to their current product offering. The whips (flyer and pricing attached) can be added to your orders with standard terms and conditions applicable.

Standard configurations are currently available in Roselle, Illinois for immediate delivery. Specials should be handled through Callas/Kingsley Electrical Sales for pricing and availability.

In conjunction with this announcement, Callas/Kingsley is pleased to announce that we will be representing **The Liquid Tite Connector Company** "LTC", for all City of Chicago approved Plenflex whips. **Liquid Tite Connector Company** is located in Addison, Illinois and also has product available for immediate delivery.

Callas/Kingsley is excited to represent these two fine companies and their latest product offerings and look forward to serving you for any of your future fixture and air conditioning whips needs.

Please contact your outside sales representative from Callas/Kingsley regarding any special or large projects.

Respectfully,

Jim Kingsley
